

Niklas Maximilian Müller

Ph.D. Student in Mathematics

Universität Duisburg-Essen, RG of Daniel Greb

Thea-Leymann-Str. 9, 45127 Essen (Germany)

Education

since 2022	Ph.D. student at Universität Duisburg-Essen; member of the GRK 2553 Supervisor: Daniel Greb	
2020-2022	M.Sc. in maths at Universität Duisburg-Essen Canonical Extensions and Positivity of Curvature	Grade: 1.0
2019-2020	B.Sc. in maths at Universität des Saarlandes Vanishing Theorems in Birational Geometry	Grade: 1.0
2017-2019	Study of physics at Universität des Saarlandes	
2009-2017	Attendance of high school Christian von Mannlich-Gymnasium, Homburg	Grade: 1.0

Language Skills

German	Mother speaker
English	Fluent Cambridge Advanced Certificate; passed with 204/210 points
French	B1-B2

Research Texts

2024	Appendix to A strong counterexample to the Log Canonical Beauville-Bogomolov decomposition. Preprint. (Main text written by F. Bernasconi, S. Filipazzi, Z. Patakfalvi & N. Tsakanikas) arXiv:2407.17260
2024	Abundance theorem for Minimal Projective Varieties satisfying Miyaoka's equality. Preprint. (with M. Iwai & S. -I. Matsumura) arXiv:2404.07568
2023	Two Non-Vanishing results concerning the Anti-Canonical Bundle. To appear in Nagoya Mathematical Journal. arXiv:2305.19109
2022	Locally Constant Fibrations and Positivity of Curvature. To appear in the Bulletin of the London Mathematical Society. arXiv:2212.11530
2022	Canonical extensions of manifolds with nef tangent bundle. To appear in Arkiv för Matematik. arXiv:2211.03469

Research Talks

17.12.2024	Minimal Projective Varieties satisfying Miyaoka's equality. Oberseminar algebraische Geometrie, Saarbrücken
19.11.2024	Minimal Projective Varieties satisfying Miyaoka's equality. Géométrie algébrique et Géométrie complexe, CIRM, Marseille
10.10.2024	Minimal Projective Varieties satisfying Miyaoka's equality. Séminaire géométrie, analyse et dynamique, Nice
07.05.2024	Minimal Projective Varieties satisfying Miyaoka's equality. Oberseminar algebraische Geometrie, Bayreuth
11.04.2024	Minimal Projective Varieties satisfying Miyaoka's equality. Oberseminar algebraische Geometrie, Hannover
07.07.2023	An Equivariant Non-Vanishing Results concerning the Anti-Canonical Bundle. Joint Seminar on Complex Algebraic Geometry and Complex Analysis, Essen
05.06.2023	Two Non-Vanishing Results concerning the Anti-Canonical Bundle. Minitalk during the conference on nonpositive curvature in Kähler geometry, Aussois
04.11.2022	Positivity and Canonical Extensions: Surfaces and beyond. Oberseminar of Thomas Peternell, Bayreuth

Extracurricular Activities

ST 23	Organiser of a Learning Seminar on Variation of GIT Quotients
Since ST 23	Lecturer for the Junioruni Essen
WT 22/23	Co-organiser of a Ph.D.-Seminar on Algebraic Groups
ST 22	Student Member of an Appointment Committee at Universität Duisburg-Essen
